

[Encase Forensic V7 Crack](#)

The screenshot shows the EnCase Forensic interface. The main window displays a case named "Case (Thomas Cator)" with a table of evidence items. One item, "Disk Image", is selected. The "Tools" menu is open, and "EnScript" is highlighted. A "Magnet Forensics - Internet Evidence Finder Configuration" dialog box is open in the foreground. In this dialog, the "Search Type" is set to "Full", and "Export IEF results out to additional format" is set to "EnCase Records (LEF)". The "OK" button is circled in red. A red arrow points from the "OK" button to the "Files processed:" field in the "Internet Evidence Finder" search status window. The search status window shows "User Selected" with a green checkmark, "Files processed: 0/1", "Time elapsed (current search): 00:01:12", "Time elapsed (total): 00:01:12", and "Current search progress: Calculating...". The "Show Details" and "Cancel Search" buttons are visible at the bottom of the search status window. The EnCase Forensic status bar at the bottom shows "Thomas Cator" and "Run IEF - Standalone".
